

Entry Doors

Approved by Architecture Committee & Board

The Stonehill Community Association Board of Directors has approved replacement entry doors for use in the community. These may be full steel doors or selected doors with glass panels. Glass may be clear or may be “frosted” but without design or color. It may have no etching, facets, cross bucks, etc. If frosted, the glass may be with at most a limited pattern and design. i.e. s. All glass portions must be rectangular i.e. no curved nor semi-circle panels, but may be divided into rectangular or diamond shaped sub-panel.

For example:

Doors may include full or half glass and must be finished in approved colors.

Doors currently approved include the models shown below. Other models within the above guidelines may also be submitted for consideration. All installations still require prior specific approval of the Architectural Committee and the Board of Directors
